CORTIZZA HAS LAUNCHED

Get to know cork in a whole new way. Cortizza brings the luxury of cork to life's accessories.

August 10, 2011, Reno, Nevada -- Co-founder Diane Thompson, today announced the founding of Cortizza, www.cortizza.com. Cortizza brings consumers a wide variety of life's accessories made with beautiful and sustainable cork leather (also called cork fabric) and cork paper. We develop and manufacture Cortizza exclusives and we seek out the best from designers around the world. There's no need to sacrifice style or functionality to live sustainably. Cortizza products combine creativity, beauty and sustainability.

Cortizza products include wine accessories, business accessories, travel accessories, as well as handbags and both men's and women's wallets. Many are perfect for corporate gifts and can be personalized with a logo or custom text with elegant laser engraving.

Cork leather is an amazing material: soft, suede-like texture, available in a wide variety of colors and patterns, water and stain resistant. It's a great vegan alternative that will be equally admired by non-vegans. Cork is a completely renewable resource that also supports biodiversity.

"Cork leather (fabric) has so many applications", said Ms. Thompson. "We especially like it for wine accessories like our elegant gift boxes and for business accessories. When you give someone a cork portfolio, it makes a much bigger impression than ordinary leather, and it's eco-friendly at the same time."
